Nguyễn Chí Tuệ

Software Developer

Name Nguyễn Chí Tuệ Birth 29/10/2000

Phone +84 332547834 Email tuenguyen553@gmail.com

Address Ho Chi Minh, Viet Nam

- Over 2 years of experience in utilizing React.js and Redux, demonstrating a strong understanding of their core principles.
- Experience in using Next.js for building dynamic and server-side rendered React applications.
- Proficient in popular React.js workflows, including Redux and React-Query.
- · Skilled in working with essential React.js hooks.
- Familiarity with widely-used UI libraries such as MUI, AntD, tailwind and React Bootstrap.
- · Proficient in utilizing data structure libraries.
- Possessing over 1 year of experience using the Django Framework for Python web development.
- · Familiarity with RESTful APIs and GraphQL.
- Familiarity with Python (Django, Flask), JavaScript (Node.js), Java(Spring Boot), C#(ASP.net Core)
- Proficient in using Git and GitLab for source code management.
- · Skilled in operating systems, including Linux (Ubuntu, Mint) and Windows.
- Well-versed in the Agile Scrum software development process.
- · Quick learner, adept at studying and implementing new technologies.
- · Pre-Intermediate English.

Work experience

03/2023 - 05/2023

R2S Company

Position: Full-Stack Developer

Project: Internship Recruitment Platform

- Conducted extensive research on recruitment platform to understand industry trends and pain points.
- Designed and developed features for an internship recruitment platform, focusing on userfriendly interfaces for organizations and interns.
- Implemented API development to enhance platform functionality, enabling seamless integration with external systems.
- Collaborated with cross-functional teams to gather requirements and ensure the successful implementation of desired features.
- Worked closely with the UI/UX team to create a visually appealing and intuitive user interface.
- Maintained documentation of the developed features, including API specifications, user guides, and technical documentation.

8/2022 - 03/2022

R2S Company

Position: Front-end Developer Project: my.boostpte.com

- Worked as a Software Engineer in BoostPTE project, an English learning platform, where I focused on expanding features and performing bug fixes using ReactJS.
- Collaborated with the development team to gather requirements and understand customer requests and feedback.
- Designed and developed responsive web pages based on customer requests and feedback, ensuring an optimaluser experience across different devices and screen sizes.
- Implemented new features and functionality using ReactJS, adhering to best practices and coding standards.
- Collaborated with UI/UX designers to create visually appealing and user-friendly interfaces that met customer expectations.
- Actively sought feedback from customers and incorporated their suggestions into the design and development process, continuously improving the platform.
- Stayed up-to-date with the latest web development trends and technologies, incorporating them into the platform to enhance its capabilities.

06/2022 - 08/2022

FPT Software

Position: Front-end Developer

- Developed and maintained the front-end functionality of websites, ensuring a seamless and user-friendly experience for users.
- Collaborated with UI/UX designers to translate design prototypes into interactive and visually appealing websites and applications.
- Utilized HTML, CSS, and JavaScript to write cross-browser compliant code that adheres to web standards and best practices.
- Conducted thorough testing and debugging to identify and fix any issues or bugs, ensuring the
 quality and stability of the front-end codebase.
- Actively participated in code reviews, providing feedback and suggestions to improve code quality and maintainability.

Education

2019/08 - 2024/01

Bach Khoa University

Major - Computer Science

GPA - 7.0

Certificates

06/2021 Pandas and Data Visualization on Kaggle

03/2021 Make a website Ecommerce using Reactjs with Django on Udemy

12/2020 Python and Django Framework online on Udemy

08/2020 Basic and advanced Javascript on Codelearn

06/2020 Basic and advanced algorithms on Udemy
